Aurea global support

If you encounter a problem while using an Aurea product or require assistance with downloading the software or upgrading a product release, please, try to:

- Search the articles on the Aurea Knowledge Base for solutions to your issues.

- Search the product documentation and other product-related information that are also available on Support Central.

If you still cannot find a solution, open a ticket on Aurea Support Central. Information about the support organization is available on Support Portal as well.

You can also find the setup files on Support Portal.

For information about purchasing an upgrade or professional services, contact your account executive. If you do not know who your account executive is, or for other queries, contact us through our website.

Remove Followers add-on

Remove Followers add-on allows you to:

- Review list of all followers
- Make people unfollow you without notifying them

Give your uses the power to manage who follows them. An easy and simple way to review the list of followers and remove users from following you.

For details, see the following topics:

- Installing Remove Followers Add-on
- Configuring Remove Followers Add-on
- Removing followers with the Remove Followers add-on

Installing Remove Followers Add-on

Open a support with the Support to install this add-on.

Configuring Remove Followers Add-on

Remove Followers Add-on is an add-on that uses user groups for determining access.

Fastpath: **Admin Console** > **Permissions** > **User Groups**

Fastpath: **Advanced Admin Console** > **People** > **Management** > **Create User Group**

Fastpath: **User interface: Your avatar** > **Add-ons**

A user must have at least Manage System permissions to configure add-ons.

Configuring user groups for Remove Followers

The Remove Followers add-on uses user groups to provide secure access to the add-on features.

To configure user groups for the Remove Followers add-on:

1. Go to the user group configuration page:

   - **Admin Console** > **Permissions** > **User Groups**
   - **Advanced Admin Console** > **People** > **Management** > **Create User Group**

2. Under **General Settings**, enter a user group name and click **Create Group**.

   For this example, we are creating a `Manage Followers` user group.

3. Add the concerned administrators as members to this user group.
4. Save the changes.

Applying user groups to Remove Followers

Add the preconfigured user group (or groups) to the Remove Followers Add-on configuration to allow users of this group to use the add-on.

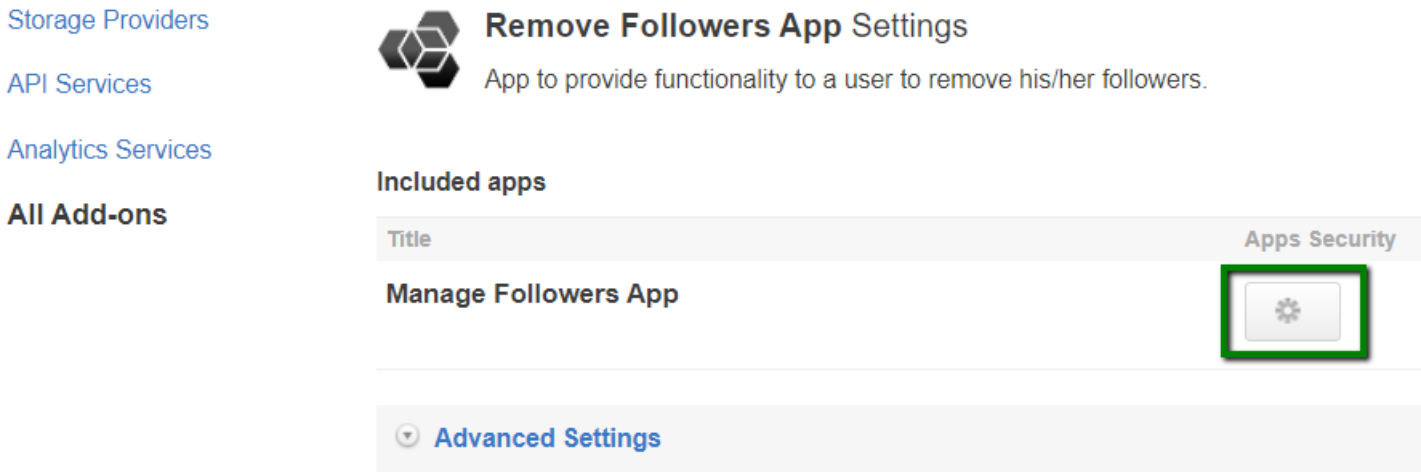

Fastpath: **User interface: Your avatar** > **Add-ons**

A user must have at least Manage System permissions to configure add-ons.

To configure user groups for the Remove Followers add-on:

1. Go to **User interface: Your avatar** > **Add-ons** > **All Add-ons** > **Installed** .

2. Find **Remove Followers** in the list, click **the gear icon** > **Settings** .

3. Under **App Security**, click the gear icon next to **Remove Followers**.

   Figure 1: Remove Followers add-on security settings

User groups with access to the `Manage Followers` feature are listed here. By default, the **All registered users** user group is used.

4. Remove **All registered users** and add the user groups which should have access to the feature.

   In this example, we are adding the `Manage Followers` user group.

5. Save the changes.

Members of the specified user group (`Manage Followers` in the example) can now configure and use the Remove Followers add-on.

Removing followers with the Remove Followers add-on

Here you can find details on using the Remove Followers add-on to remove followers without notifications.

Fastpath: **Your avatar** > **View Profile** > **Manage Followers**

1. Go to the **Manage Followers** tab on your profile page: **Your avatar** > **View Profile** > **Manage Followers** .
2. In **List of Users Following You**, select the users you want to remove and click **Remove Selected Followers**.

The selected users are removed from your followers without any notifications sent.
